# Strangers?

# What to share

---

1. Would you share your bank account details on a social media site, where you don't know everyone using the site?
2. Would you share a video of yourself talking about your secrets — not knowing who might watch?
3. Would you set up an account on a website you had never heard of before and provide your name and address?

# Your code of conduct

You're a creator

As a writer, you might  
make comments,  
post blogs or write  
content for a website

As a videographer,  
you might make a  
short film, video or  
post a vlog

You're also a creator  
when you post,  
comment and share  
on social media

As a student  
studying online,  
you might participate  
in class chats or  
post assignments

So create and  
publish responsibly

Stop and think about  
what you are doing  
online and think about  
the information you  
post and share

You are in control of  
your digital self

# SUMMARY

## How can I protect my digital identity?

1.

Adjust your privacy settings.

2.

Reflect about what you are doing online and think about the information you post and share

Time to help Angela  
make the right and  
safe online choices!

Angela just started using the internet and she discovered this new social media site. She doesn't really know who uses it, but it seems to be fun to join!

She has been asked to provide her name and address.

# Steps

**1** Check Settings (Alerts and Approvals for Log-IN and Log-Out, Log-out after use)

**2** Use a strong password

**3** Activate 2 Factor Authentication

**4** Conduct privacy/security check-up regularly

**5** Report to FB if your account gets hacked

If you think your group  
is the right multiple  
choice answer, raise  
your hand and shout  
“Like!”

# Quiz # 1

---

- Angela loves going to internet cafes to play games and to log into social media sites to check her friends' posts.
- She is in the café today but not sure if she is safe.
- What should she do?

# Choices

**A**

Ensure that you  
always log out when  
not using your  
personal gadget

**B**

Ensure password is  
strong and unique

**C**

Have multiple  
accounts in case  
one gets hacked.

**D**

Both A and B

# Steps

**1** Check Settings (Alerts and Approvals for Log-IN and Log-Out, Log-out after use)

**2** Use a strong password

**3** Activate 2 Factor Authentication

**4** Conduct privacy/security check-up regularly

**5** Report to FB if your account gets hacked

# Quiz # 2

---

- Angela is really excited to try different ways to earn money.
- She doesn't really know who uses this social media site, but since it has quite a number of shares and likes - she plans to give her bank details anyway!

# Choices

**A**

Check for reviews  
about the social  
media site

**B**

Give bank details  
anyway, since it has a  
lot of shares and  
likes!

**C**

Not share details  
and report the site

**D**

Both A and C

# Steps

1

Review friends list and ensure that you really know them

2

Adjust privacy settings of post and change if needed

3

Adjust location settings of post

# SUMMARY

## Your Digital Footprint

1.

What is digital identity?  
**All the information you enter, post and share while you are on the internet helps form your digital identity**

2.

Why is it important to protect our digital identity?  
**People can take advantage of our online interactions but if we take precautions we can minimize our vulnerability to different online RISKS.**

3.

How can I protect my digital identity?  
**Adjust privacy settings and reflect on what you share and post online**

# Thank you
