Communicating Respectfully

# Digital Citizen

A digital citizen is a person who has the **skills and knowledge** to use digital technologies *confidently* so they can understand what they see online, **engage positively, and communicate with others.**

# WHAT'S TO COME

How can I become a responsible Digital User?  
CREATE A SAFE ONLINE ENVIRONMENT

1.

REFLECT ABOUT DIGITAL  
SELF: Your Digital Footprint

2.

**CONNECT WITH OTHERS  
RESPONSIBLY: You as a  
Digital Citizen**

3.

THINKING CRITICALLY  
ONLINE: Be a Critical  
Thinker

What does it mean to  
communicate online?

# SET INDUCTION ACTIVITY

The objective of the game is to come up with a solution to a specific problem!

- Find a partner!
  - Choose one of the following topics to solve.
  - You have 5 mins to talk about the chosen topic.
  - Every time you respond to each other you need to start with NO, BUT...
1. Road traffic
  2. Water shortage
  3. The best diet

If you were to choose an emoji to describe the emotion you felt during the discussion, what would it be and why?

What are things you think you can do to better improve the discussion?

It is easy to get lost in  
our **own** opinions,  
feelings and  
experiences.

We forget about the  
**other person** – behind  
the screen.

But behind every screen is a human being with unique experiences and backgrounds - just like you and me.

And remembering that allows us to **empathize** with them and try to put ourselves in their shoes.
